## Eligibility Criteria

The money-back guarantee is a valuable benefit that we offer to students who exhibit a genuine interest in our programming courses. To qualify for this guarantee, students are required to make full payment for their chosen course at the outset. Payment in instalments does not fall under this policy. This strict requirement ensures that the guarantee is only extended to those who are fully committed to their educational journey with us.

## Attendance Requirement

Active participation in live classes is crucial for a successful learning experience. To be eligible for the money-back guarantee, students must attend a minimum of 95% of the live classes. This level of attendance not only ensures that students are actively engaged in the learning process but also fosters a sense of commitment and dedication to their studies.

## Assignment Submission

Assignments play a vital role in reinforcing and assessing the knowledge gained during the course. It is, therefore, imperative that students submit all assignments before their respective due dates. Failing to meet assignment deadlines may result in disqualification from the money-back guarantee, as it indicates a lack of commitment to the learning process.

## Live Class Attendance

We place a strong emphasis on the value of live interactions and real-time engagement with instructors and fellow students. As such, the money-back guarantee will not be granted to students who opt to rely solely on recorded content and do not actively participate in live classes. This ensures that students are fully involved in the learning experience as intended.

## Course Adaptation:

We understand that not every student may find the course content equally accessible. Therefore, students facing difficulties in understanding the material have the option to request changes such as switching trainers, altering class timings, or even selecting a different course that better aligns with their needs. It is important to note, however, that these adaptations are intended to enhance the learning experience, and they do not guarantee a refund. This policy ensures that students are encouraged to proactively seek support and improvements rather than merely seeking a refund as a first resort. 

## Scheduled Commitment:

We expect our students to carefully consider their schedules and course commitments before enrolling. Students who join a course and later discover that the class timings do not align with their schedules, resulting in their intention to leave the program midway, are not entitled to the money-back guarantee. This policy encourages students to make informed decisions and reinforces the importance of their initial commitment.

## Commitment to Learning:

We provide top-quality education, and we commit to ensuring 100% satisfaction for our students who actively attend live classes every day. This guarantee assures that students receive the best possible learning experience when they fully engage in the educational process.

## Refund Request:

In rare cases where a student meets all the aforementioned conditions and still remains dissatisfied with the course, they may request a refund within 15 days of completing the course. This 15-day window allows for a reasonable period of reflection and evaluation. We are committed to processing refund requests within 7 business days, providing a timely resolution to ensure student satisfaction.

change the above text to mention clearly that 15-days from starting of the course are eligible for money back guarantee.

## Terms and Conditions:

It is essential for students to understand that this money-back guarantee is exclusively subject to the terms and conditions outlined here. No other express or implied warranties exist or should be assumed beyond what is explicitly stated in this policy.

## Modification Rights:

As a dynamic educational institution, we reserve the right to modify or discontinue the money-back guarantee policy at any time, without prior notice. This flexibility allows us to adapt to changing circumstances while maintaining transparency with our students.

## Acknowledgment:

By enrolling in one of our courses and submitting full payment at the outset, the student acknowledges and agrees to the terms and conditions detailed in this policy. This acknowledgment serves as a formal agreement between the student and our institution, underlining their commitment to the stipulated conditions.

All the above mentioned terms and conditions are aligned with legalities and our organization is a private limited company registered with India. arguing or trying to offend legally to break our terms and conditions will not be entertained. And such actions are strictly punishable under The Indian Contract Act 1872 and The Specific Relief Act 1963 are the two statutory legislations dealing with contract enforcement in India. The Indian Contract Act covers the general principles of contract law including damages and consequences in case of breach of contract. Please read the terms and conditions carefully before accepting.
